“ I had Mrs. Higbee in the 8th grade some 50 odd years ago. I hated school and couldn't see the need for it. One day in class she made a comment about life and it stuck with me all my life. I never realize how important until a few years later. I tried my best to get in touch with her years later to let her know how important that message meant to me but could never locate her. Sent messages through people in Saluda that said they knew her. I sure hope she knew how she changed some people's life for the better. Oh, and school, after I got out of the service I went back to school and got a degree. Thanks Mrs. Higbee. R.I.P.
