“ My husband and I are saddened to read of Billy's passing. We are both treated for sleep apnea and Billy helped us understand the graphs and data and how to adjust our equipment to get the best results. He was truly a light in the tunnel for us, always ready to respond to our needs and relieve our concerns. He was also a great person to just sit and chat with, something we truly missed when he took leave from his career. We had no idea he was so ill. We pray that his family finds comfort in this time of mourning.
